Abstract
Human beings created by Allah SWT to this world as khulafa Allah, meaning duty which the most weight. In duty of khulafa, Allah SWT supply human being by 2 sentence (ayah) that is sentences of Kauliyah (ayatul quraniah) and sentences of kauniah. From Islam literatures and all article, Seciences Moslem in XV H century, hence Islam very commanding to pay attention sentences of Kauniah becoming background development of Science. And Islam very suggesting and challenging clan of Moslem to look for and develop technology and science to be someone prerequisite become Khellfah Al Andharni fulfilled. Clan of Moslem have to reach for again technology and science which have been owned like at Islam classic century.

Keywords: Islam, science, technology
